Teacher's Signature _____

Assignment-1:- Introduction of HTML.

- Webpages are written in HTML.
- HTML:- Hyper Text, Markup Language.
- Hyper Text → Piece of text that works as a link.
- Markup Lang → Way of writing layout info within Document.
- When a browser opens an HTML file, it will look for HTML form in the text and use them to change layout, insert image and create links to other pages.
- Since HTML Doc. are just text file they can be written in any text editor.
- Popular choice is to use a special text editor mainly the one that puts focus on the visual result; rather than the source -
- Called WYSIWYG Editor (What you see is what you get).
- Sum of Most Popular HTML Editors:- FrontPage, Dreamviewer, Notepad++, etc.-
- ~~Will let you create pages more or less as you write doc in words.~~
- It is forgiving → Quality associated with all the browser is that they could not give any error, if you have not put any HTML tag or attribute properly.
- They will just ignore that tag or Attribute and will apply only correct tags and Att. before displaying the result.
- Disadvantages of HTML:-
 - ① Only Static & Plain webpages are made.
 - ② Need to write a lot of code for simple webpages.
 - ③ Security features are not good.
 - ④ Complexity is produced when code is longer.

Assignment-21- Advantage & Disadvantage of HTML.

- Advantages:-
- ① Widely used and supported by Every Browser.
 - ② Easy to learn/Use.
 - ③ By default installed in every windows OS,
Don't need extra paid software.
 - ④ It would not give any error.
- Disadvantages:-
- ① Only Static & Plain Webpages are made.
 - ② Need to write a lot of code for simple webpage.
 - ③ Security features are ~~not~~ good.
 - ④ Complexity is produced when code is long.

This is my first webpage.

This is heading.

Assignment-31- Basic Structure of HTML.

- HTML Document start and end with html tag.
- Document is split in two sections.
- `<head>.....</head>` this contain information about Document.
- `<body>.....</body>` this contain the real content of Document that you see on the screen.
- Tag and attribute name are not case sensitive.

```
<html>
```

```
<head>
```

```
<title> This is my first Webpage </title>
```

```
</head>
```

```
<body>
```

```
<h1> This is heading </h1>
```

```
</body>
```

```
</html>
```

Our Rajasthan.

Our Rajasthan, Our Pride

Rajasthan is a beautiful state of India, famous for its rich history and royal culture.

Rajasthan is also known for its colorful festivals, folk dances. Its culture makes it unique.

It has the Desert, beautiful lakes, and Aravali hills at its beauty.

```
<html>
```

```
<head>
```

```
<title> Our Rajasthan </title>
```

```
<h1> Our Rajasthan, Our Pride </h1>
```

```
</head>
```

```
<body>
```

```
<h3> Rajasthan is a beautiful state of India,  
famous for its rich history and royal culture.
```

```
</h3>
```

```
<h4> Rajasthan is also known for its colorful  
festivals, folk dances. Its culture make it unique.
```

```
</h4>
```

```
<h4> It has Thar Desert, beautiful lakes, and  
Aravali hills at its beauty.
```

```
</h4>
```

```
</body>
```

```
</html>
```

Independence Day of India.

Independence Day of India.

→ India gained Independence from British rule on 15 August 1947.

It is a day to remember the sacrifices of our freedom fighters.

Many freedom fighters contributed to India's struggle for freedom.

We celebrate ~~to~~ 15 August as Independence day.

Assignment - 5

→ Create HTML Page using various formatting text as per "Independence Day of India".

<html>

<head>

<title> Independence Day of India </title>

< <h1> Independence Day of India </h1> <h2>

<head>

<body>

<p> India gained independence from British rule on 15 August 1947 </p>

<p><u> It is a day to remember the sacrifices of our freedom fighters </u> </p>

<p><i> Many freedom fighters contributed to India's struggle for freedom </i> </p>

<p> We celebrate <strike> 16 </strike> 15 August as Independence day. </p>

</body>

</html>

Squared HTML:

Square of Numbers (1 to 10).

$$1^2 = 1$$

$$2^2 = 4$$

$$3^2 = 9$$

$$4^2 = 16$$

$$5^2 = 25$$

$$6^2 = 36$$

$$7^2 = 49$$

$$8^2 = 64$$

$$9^2 = 81$$

$$10^2 = 100$$

Assignment-6

→ Print the sq. of the no. 1 to 10. Each no. should be separate line.

```
<html>
```

```
<head>
```

```
